Kidney March ... an unforgettable adventure

Kidney March is September 7 - 9, 2018 • 3 days – 100 kilometres – K-Country to Calgary

The Kidney Foundation of Canada is proud to host its **9th annual Kidney March from September 7 - 9, 2018**. 400 Marchers and Crew will make the unforgettable **3 day, 100K walk from Kananaskis Country to Calgary**.

This breathtaking adventure begins at the Millarville Race Track, passes through K-Country and Bragg Creek, and ends at Canada Olympic Park in Calgary. Marchers are drawn together because their lives have been impacted by kidney disease - patients, loved ones, doctors, nurses and scientists.

Kidney March is the only event of its kind on Earth.

1 in 10 Canadians has kidney disease, and each day 15 people learn their kidneys have failed. The money raised at Kidney March supports prevention, lifesaving research, patient programs, kidney kids camp, and organ donation. Sign up as a Marcher or Crew member today! Come to **Kidney March Expo April 22, 10 am at the Delta Calgary South** for training tips and more.
